## EDUCATION

---

### Thakur College Of Science and Commerce

2021-2023

Master's in Computer Science

Mumbai, Maharashtra

GPA: 7.67

## EXPERIENCE

---

### MOBILESTYX CONSULTING AND SOLUTIONS

2021 - 2023

*IT Project Coordinator*

Mumbai, Maharashtra

- Successfully managed and maintained 13 Land Rover Jaguar websites.
- Skilled in requirement gathering and effective communication with the development team.
- Displayed strong leadership skills while overseeing and leading a team of developers.
- Exhibited exceptional abilities in client communication and maintaining positive client relationships.

### TRREV TECHNOLOGY

2023 - Present

*Website Developer-Intern*

Mumbai, Maharashtra

- Excelled as a website developer during a 4-month internship, showcasing project management skills.
- Created innovative web applications, including Screendail (file transfer), Dancestudio (dance studio website), and TrrevoPod (podcast website).
- Collaborated seamlessly with cross-functional teams to achieve project objectives.

## PROJECTS (Below, I have listed the projects I had the honor of handling as a project coordinator.)

---

### Land Rover ME Locator and Jaguar ME Locator

- The website is a location-based store locator platform for Land Rover and Jaguar dealerships and authorized retail stores in the Middle East. It makes it easy for customers to find nearby physical stores to explore and purchase Land Rover and Jaguar vehicles, accessories, and related products. The user-friendly tool provides contact details, operating hours, and directions, enhancing the brand presence and customer engagement in the region.

### Land Rover BrandedGoods and Jaguar BrandedGoods

- This is an online platform offering a wide range of Land Rover and Jaguar merchandise and accessories. With a user-friendly interface, it showcases high-quality items, including apparel and lifestyle products, reflecting the Land Rover brand's ethos and heritage. Serving Land Rover and Jaguar enthusiasts and fans in Saudi Arabia, it provides a convenient way to shop for authentic products, enhancing the brand experience beyond vehicles.

## PROJECTS (I contributed to below projects as a website developer intern.)

---

### HRX Job Portal

- This is a job portal focused on human resources and recruitment. It connects job seekers with employers across different industries, allowing users to browse job listings, apply for positions, and manage job postings. Please note that website content may have changed since my last update; for the latest information, visit the website directly.

### Screendial

- This is a user-friendly file-sharing service, ideal for sending and receiving large files securely. The platform generates unique links for file sharing without requiring user accounts, providing a convenient solution for personal and professional needs.

## SKILLS

---
