PROFILE

I am Anjali Ojha, a Mumbai-based Computer Science postgraduate with 2 years of IT experience. Excelled as a project coordinator, successfully managed a team as a project coordinator for Land Rover and Jaguar websites across 13 countries. Developed leadership and communication skills, ensuring successful project outcomes. Undertook a web development internship and contributed to multiple projects, showcasing coding, design, and problem-solving abilities. Currently engaged in ongoing projects to further enhance expertise.

WORK EXPERIENCE

IT PROJECT COORDINATOR

Mobilestyx Consulting and Solutions   2021-2023

Experienced Project Coordinator specializing in website management and development. Managed Land Rover Jaguar website, ensuring seamless operations and exceptional user experiences. Proficient in Laravel, Bootstrap, CSS, and MySQL for innovative websites. Delivers projects on time and within budget, with a successful track record in website launches and optimizing performance.

WEBSITE DEVELOPER

TRRev Technology   2023-Present

Experienced website developer with hands-on project management skills gained from a 4-month internship. Developed web applications including Screendail (file transfer), Dancestudio (dance studio website), and TrrevoPod (podcast website). Currently working on Wabpay (real estate project) and Drone Mitra (agricultural drone project). Collaborates effectively with cross-functional teams, ensures high-quality code, conducts thorough testing, and stays updated with industry trends. Committed to delivering projects on time and within budget with professionalism and attention to detail.
